

OARS/SUD meeting notes January 8, 2020

- **Introductions/Updates**

- Overview of OARS from Greg Anderson
- Coming together to discuss issues related to opioid use disorder
- Community driven
- Engage the health care system

- **SUD Reform Collaborative**

- Formed in 2017 to collaborate and address issues related to 245G
- Establish a service delivery system

- **Pros of combining groups**

- More resources
- Missions are similar
- Better communication
- More opportunities
- Decrease operating in silos
- Combine focus but not lose work that's been done
- Fresh start

- **Cons of combining**

- Not everyone knows what SUD is doing (245G)
- Location of meetings
- Lose work that's been done

- **Lt. Kazel updates:**

- HIDTA designation (High Intensity Drug trafficking Area)
- Additional funds to pay for increased law enforcement equipment, resources

-Education in schools

- **CAPE North Overview**

-What's happening North that's working?

-Community partners are involved

-Very community based and driven

- **Focus**

(Expand the focus outside of just opioids?)

-Meth is a large problem

-Fentanyl

-Alcohol

-Goal of 0 deaths related to substances and active recovery

-Connections

-Build a stronger framework

-Person centered care

- **Plan**

-Send out visual of different options, get feedback and move forward
